

The Dakota Hot Springs.

The Hot Springs of Arkansas have long been deservedly popular. For the reason that there has been no other place that has filled the requirements of both a health and a pleasure resort. This state of affairs has changed. The Hot Springs of South Dakota have, in recent years, been thrown open to the people, and because of their delightful situation and great curative qualities, are becoming more popular every day. Situated as this resort is, in the famous Black Hills, in the midst of beautiful mountain scenery, possessing that peculiar balsamic atmosphere which is in itself health giving, with waters that are pronounced by experts equal if not superior to those of any other mineral springs in the world, it will soon outrank any other like resort.

The hotel accommodations are of the best—hotels with all the modern improvements and conveniences. The Evans Hotel, built of pink sand stone, with steam heat, electric lights, and every room an outside one, is easily the best conducted house between Chicago and Denver. Fine bath houses are connected with the best hotels. The rates of all the hotels are very reasonable. The surrounding country more than picturesque—it is wonderful. The marvelous "Wind Cave," the falls of Fall River, Battle Mountain, the old Indian battle ground, Deadwood and the gold fields, and the famous Bad Lands are all within driving distance. The mammoth plunge bath at the Springs is noted as being one of the largest matatoriums in the world. So healthful are the surroundings, and so many the conveniences of this "Caribad of America," that it is rapidly becoming the "Mecca," not only for invalids, but for pleasure-seekers as well. The "Burlington Route" reaches there in a day and a half from St. Louis. Pullman sleepers and free chair cars on train No. 15 run to Lincoln, and from Lincoln free chair cars and sleepers run through to the springs.

For further information call on any "Burlington Route" Agent, or address D. O. Ives, G. P. and T. A., St. Louis, Mo.

SENATOR BLACKBURN of Kentucky has announced himself a candidate for re-election on a platform of free and unlimited coinage of silver at a ratio of 16 to 1. He says: "In 1792 this country, with only 4,000,000 of people, was bold enough to prove itself able to discard the monetary system of Great Britain and establish one of its own which for nearly 100 years met every demand and stood every strain that the growth and development of the country put upon it. I believe that the destruction (entailed upon us by this demonization policy) of one-half of our redemption money has contributed more than any cause to the shrinkage of all values, the depreciation of all property, the stagnation of trade, the paralysis of industry—the financial troubles in which we now find ourselves. I am in favor of the restoration of the silver metal at the ratio of 16 to 1 believing, in the light of an experience that covers a century, such ratio will establish and maintain permanently the parity between the metals. I believe that we should take this action at earliest day possible, independent of the policies or views of other nations. I have as abiding faith in the ability of my country to establish and maintain its own monetary system as that which I cherish in its ability to defend its soil from invasion or its institutions from assault. In my judgment, we are as independent of foreign dictation or domination in one as the other."

For whooping cough Chamberlain's Cough Remedy is excellent. By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the remedy to babies, as it contains nothing injurious. 25 and 50 cent bottles for sale by W. C. Gaston.

HOW DO YOU MEASURE.
I'm just as tall as my brother Joe,
For all he'll tell you it isn't so.
Often and often he has said
He's taller than I by half a head;
If you count that way, perhaps he is,
But my feet go down as far as his;
So, wherever our heads may be,
I say
I'm exactly as tall the other way.

At a prayer-meeting in a small town near Syracuse recently, says an exchange, an illiterate but good man made the following prayer: O Lord, Thou knowest that we are thankful to Thee that our souls are safe from that fire that quencheseth not. If a man lose his horse Thou knowest he can buy another; if he lose his wife Thou knowest he can get another; but if he lose his soul—good bye John.—Ex.

A Happy Nation.
Compiled for the Globe-Democrat.
We ought to be happy because:
There are 68,403 post-offices.
We have 175,441 miles of railroad track.

Less than one-half of our farms are mortgaged.
We produced, in 1893, 1,619,496, 130 bushels of corn.
In 1894, 7,527,211 bales of cotton were raised and picked.
In the year of 1893 our mint coined of gold and silver \$43,865,179.
The parents of this country are blessed with 22,447,392 children.
We raised in the Carolinas and Georgia 128,590,434 pounds of rice.
We export \$972,861,328 worth of goods and import only \$476,736,293.
American sheep last year grew wool to the extent of 297,100,000 pounds.
The farm lands of this country are estimated to be worth \$23,279,252,649.
The real and personal property in this country is assessed at \$17,139,908,495.
Only about one-fifth of our country is straight up and down like Switzerland.
There are only 71,395 divorced women in this country; there might have been more.
The fishermen along our coasts in our waters catch \$45,000,000 worth of fish every year.
We have not a debt of \$6,000,000, 000, like France, nor yet of \$587,000,000, like England.
The farmers and stock-raisers of this country have livestock valued at \$2,298,767,573.
There are only 107,475 Chinamen in this country, instead of 400,000, 000, as they have in China.
We have not had thirty-one administrations in twenty-four years, like the people of France.
Our 451 colleges have an income of \$14,601,034, and funds vested or available of \$94,560,738.
Our coal mines produce 113,237,845 tons of bituminous coal and 46,850,450 tons of anthracite.
No nation, save Great Britain, coins a greater amount of gold every year than the United States.
Our savings banks have \$1,139,006,705 deposited with them as the surplus earnings of the people.
Between the years 1849 and 1894 the silver mines of this country have yielded \$1,151,817,575 of silver.
There were, according to the eleventh census, only 40,941 men and 32,304 women in our almshouses.
Instead of one Italy as Europe has, we have two, the gulf coast and the coast of Southern California.
The total valuation of all the farm products of every description was by the last census \$2,460,107,454.
The valuation of labor of our hens in eggs and spring chickens is every year estimated at \$300,000,000.

Since the organization of our mint 1873, it has coined, of gold \$1,612,505,375.50, and of silver, \$669,292,332.
